Neutron Sciences Call for Proposals Due February 21, 2018

Proposals for beam time at Oak Ridge National Laboratory's High Flux Isotope Reactor (HFIR) and Spallation Neutron Source (SNS) will be accepted via the web-based proposal system until 11:59 a.m. (EDT), Wednesday, February 21, 2018.

This call is for experiments anticipated to run at SNS from June to December 2018, and at HFIR from July to December 2018.

Information and instructions

To learn more about submitting a proposal for beam time, go to neutrons.ornl.gov/users/ or directly to the proposal system at https://snsapp1.sns.ornl.gov/xprod/f?p=100. Previously submitted proposals may be used as the basis for new proposals. All proposals will be reviewed for feasibility, safety, and the potential for high-impact science. Before beginning approved experiments, users must complete access and training requirements and ensure that the appropriate user agreements are in place.
